

NEW Class offering:

Private Ballet Coaching/Small Group

In-Depth Classical Training for the Highly Motivated

* I'll concentrate on the basic concepts that apply to classical ballet training -- core strength and placement, balance, extension, musicality, strength and shape of the legs and feet, the clean port de bras, and classical lines. This training is specific to each individual student.

* No two dancers are alike in how they learn or in their physicality. Large group instruction often needs to be augmented with private training, designed for the specific needs of the individual.

* Designed for a more intimate dance experience for a minimum of 4 and maximum of 7 dancers

* Intended for the student wishing to refine their technique and receive the benefits of private coaching in a small group setting.

****This class can only be taken as a supplement to the M/T/W classes, it is not a stand-alone class.***
